

CHHOUN PIETHCHESDA

Address: Dongkor, Phnom Penh, Cambodia

Phone: 010889814

Email: chesdasda@gmail.com

SUMMARY

Motivated third-year **Data Science and Engineering** student at the Royal University of Phnom Penh. Passionate about data-driven innovation with interests in AI, machine learning, and data visualization. Eager to contribute to projects involving data preparation, modeling, and analysis while developing strong research and technical skills.

EXPERIENCE

Data Engineer & BI Intern, RUPP	2025
- Analyzed and optimized data workflows using and SQL - Assisted in creating data summaries and visualizations for academic and operational reporting.	
Project Manager (<i>Remote Charity Project</i>)	Current
<i>Coordinated communication, task scheduling, and reporting between teams and stakeholders.</i> <i>Led project organization and progress tracking for a celebrity-led charity initiative. (Remote)</i>	
Intern – Ministry of Industry, Science, Technology & Innovation (MISTI)	Current
<i>Developed an AI-based system to detect abnormal behavior in CCTV footage.</i> <i>Implemented and tested computer vision models for real-time security applications. (Ongoing Project)</i>	
Data Science Intern - GDCE	
<i>Assisted in data cleaning, analysis, and visualization to support data-driven decisions at GDCE.</i> <i>Gained hands-on experience with data science tools and basic machine learning on real-world datasets.</i>	

ARCHIVEMENT

1st Place, Engineering Day Awards 2024 (<i>Personal Finance Management App</i>)
Developed an innovative app concept demonstrating creativity, analytical thinking, and problem-solving skills.

EDUCATION

Bachelor of Data Science and Engineering at RUPP	2023 - Present
Cheasim Samaki High School	2018 - 2023

TECHNICAL PROJECTS

Khmer Music Recommendation System

- Developed a recommendation system to suggest Khmer songs based on user preferences and data analysis.
- Technologies: Python, Pandas, NumPy, Scikit-learn

University Major Recommendation

- Applied Singular Value Decomposition (SVD) to recommend suitable university majors using student performance data.
- Technologies: Python, NumPy, Pandas, Matplotlib

Pitch Correction Using FFT

- Implemented Fast Fourier Transform (FFT) to correct and enhance pitch in recorded audio signals.
- Technologies: Python, NumPy, SciPy

IoT Smart Irrigation

- Built an IoT system using sensors and microcontrollers to automatically optimize irrigation based on soil conditions.
- Technologies: Arduino, C++, Sensors, Microcontrollers

Diabetes Prediction (Machine Learning)

- Created a Python-based machine learning model to predict diabetes likelihood from health data.
- Technologies: Python, Scikit-learn, Pandas

Image & Message Encryption

- Implemented RSA algorithms to securely encrypt and decrypt images and text data.
- Technologies: Python, RSA, Cryptography libraries

University Room Booking Website

- Designed a Django web application with authentication, scheduling, and room management features.
- Technologies: Django, MySQL, HTML, CSS, JavaScript

Cambodia Trip Website

- Developed a Next.js website showcasing attractions across 25 Cambodian provinces.
- Technologies: Next.js, React, CSS, Node.js

VOLUNTEER EXPERIENCE

Coordinator, University Entrance Exam Event

2024

- Guided new students through enrollment, improving communication and coordination skills.

Kawaii Con Event

2024

- Assisted with event operations and workshops on Japanese culture, contributing to overall event success.

National Flag Parade, Celebrate Cambodia **2025**

- Represented Cambodia during the parade, demonstrating discipline and teamwork.

Ed-Tech Summit Cambodia **2025**

- Managed registration and supported event logistics, gaining hands-on organizational experience.

HARD SKILLS

Programming Languages: Python, SQL, BI

Frameworks & Libraries: Django, React, NumPy, Pandas

Databases: MySQL, PostgreSQL, SSMS

Tools: Git, GitHub, Jupyter Notebook, Windsurf, Cursor, VS

SOFT SKILLS

Analytical Thinking	Teamwork & Collaboration	Problem Solving
Communication & Presentation	Adaptability	Time Management

LANGUAGE

- Khmer: Native
- English: Intermediate
